

HRCII-C Current-Limiting Fuses

CGL

600 Volt, 1 to 600 Amps

Catalog Symbol: CGL
 Current-Limiting
 Ampere Rating: 1 to 600 Amperes
 Voltage Rating: 600 Volts AC (or less)
 1 to 30 Amps, 250 Volts DC (or less)
 Interrupting Rating: 200,000A RMS Sym.
 40,000A DC (1 to 30A)

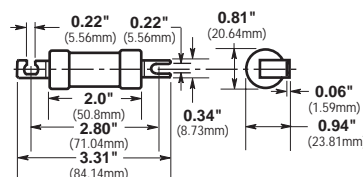

Agency Approval:
 CSA Certified, Class 1422, File 53787

General Information:

TRON® HRC FORM II Class C Fuses

- TRON® HRCII-C fuses are designed to withstand inrush currents on typical motor start-ups while offering high current limitation in the short-circuit region.
- The TRON® HRCII-C fuses can be sized close to the motor nameplate rating.
- Closer protection is offered for many motor sizes with the availability of these additional fuse ratings.
- TRON® HRCII-C fuses have a high degree of current-limitation greatly reducing the magnetic forces and thermal stresses produced in today's high capacity systems.
- TRON® HRCII-C fuses have an interrupting rating of 200,000 RMS symmetrical amperes at 600 volts.
- TRON® HRCII-C fuses are dimensionally interchangeable with other Form II fuses on the market and can be used with the same confidence as other High Quality Buss Fuses.
